

ARCHERY ENGLAND
RANKINGS FAQ

Archery England Rankings FAQ:

Hi,

I hope the information provide in this document makes sense, however if you any other questions please let me know.

I will add to the information as questions and queries come up then sending it out with the ranking updates.

This is supposed to fun so please encourage archers from your clubs throughout England to take part.

It will only be a success if archers take part, so please promote it as much as possible.

Also, please remember that this is all very new, and mistakes will happen, I am quite sure I will have made mistakes on this document and I'm sure these will be pointed out.

If you have any issues, questions or queries just let me know and I will try and help you.

Just drop me a message on Facebook or via email.

Kind Regards

Lee.

Archery England Rankings FAQ:

- It is open to All Archery England Affiliated Members.
- Most if not all this information is in the summary of the google forms so, please take the time to familiarise yourself with it.
- The qualifying Rounds are record status 720s for Compound, Recurve, Barebow & Longbow.
- Junior can take part but must shoot the senior Round.
- If there is interest a junior ranking can be produced, depending on numbers.
- If you don't see an archer's name, they may not have registered.
- All submissions and registration information are linked to a spreadsheet and the calculations within the document are uniform.
- I don't manually input the data or adjust it as the data is pulled from the google form into my spreadsheet.
- If there is an error in a category or a score, please get in contact with me on Facebook or via e-mail and I will be happy to help.

Archery England Rankings FAQ:

Example 1 & 2 are used in the production of the rankings.

- **Example 1 – Used in the Rankings**

The Minimum of 5 scores are submitted. Average taken from that if more than 5 are submitted the Top 5 will be used.

- **Example 2 – Used in the Rankings**

Only 3 scores have been submitted, to enable a fair average score to be calculated zeros are added. As new submission come in the zeros will be replaced with actuals. The average score being calculated using the zeros.

This enables people to take part even if they have not completed 5 scores and for me to divide the score by 5.

- *Example 3 – NOT USED in the Rankings*

Only 3 scores have been submitted and calculating the average score from the 3 submitted scores would be unfair as it would be potentially higher, giving a false ranking average.

Also, the rankings are base from the average of your 5 scores not 3, and I would not be able to divide the scores by 5, obviously.
